SUPPLEMENTARY INFORMATION:

Title of Collection: AmeriCorps Program Life Cycle Evaluation – Opioid Recovery Coach Model Bundled Evaluation.

OMB Control Number: TBD. *Type of Review:* New.

Respondents/Affected Public: Grantees, beneficiaries, and peer recovery coaches.

Total Estimated Number of Annual Responses: 434 respondents.

Total Estimated Number of Annual Burden Hours: 188 hours.

Abstract: The purpose of this evaluation is to study questions regarding grantees' use of the peer recovery coach model and better determine how effective the model is at increasing individuals' recovery capital, increasing attendance of health services, and decreasing incidence of substance use as well as on the peer recovery coaches and grantee organizations. The research questions for this evaluation are:

1. Determine what recovery coach models look like (activity, setting, modality, etc.).
2. Describe promising practices and challenges in implementing these models.
3. Measure the effectiveness of the recovery coach model in improving outcomes for grantee organizations, recovery coaches, and beneficiaries.

AmeriCorps will conduct a bundled evaluation of grantees that are implementing opioid recovery coaching models. Bundling allows AmeriCorps to combine a group of small programs across different funding streams with similar program models and intended outcomes into a single evaluation. Spanning 27 months, the evaluation will work with 14 grantees to examine program design, implementation, and outcomes using surveys,

interviews, and focus groups with a wide range of stakeholders, including grantee staff, volunteers who support the peer recovery coach model, beneficiaries, and staff at organizations which partner with grantees. This is a new information collection.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. All written comments will be available for public inspection on [regulations.gov](https://www.regulations.gov).

Dated: May 12, 2021.
